
 <p>उत्तर प्रदेश ब्रज तीर्थ विकास परिषद संस्कृतिक धरोहर को पुनर्जीवित</p>	<p>UTTAR PRADESH BRAJ TEERTH VIKAS PARISHAD 32 Civil Lines, MVDA Building, Mathura 281004 U.P. Email : ceo.upbtp@gmail.com, Tel : +91-565-2470190</p>	
<p style="text-align: center;">EXPRESSION OF INTEREST</p> <p style="text-align: center;">Expression of Interest (EOI) for Appointment of Consultant for Preparation of “Braj Development Plan” for Braj Region of Uttar Pradesh</p> <p>Reference No : 523 / UPBTVP / 2018-19 Date : 11.10.2018</p>		
<p>UP Braj Teerth Vikas Parishad invites Expression of Interest (EOI) from qualified and experienced Individuals / Experts for above. The detailed EOI document can be downloaded from www.upbtp.in</p> <p>Interested Bidders eligible as per qualification criteria may submit their Proposal in a sealed Envelope Containing two sealed Envelope Technical & Financial Bid separately upto 26th Oct 2018 by 1400 Hrs</p> <p>Pre Bid meeting will be held on 16th Oct 2018 at 1200 Hrs at UPBTVP office, Mathura. Amendments, if any after Pre Bid Meeting will be uploaded on Website www.upbtp.in only.</p> <p>For any other information, you can email at : ceo.upbtp@gmail.com</p> <p style="text-align: right;">(Chief Executive Officer)</p>		

DISCLAIMER

The information contained in this Expression of Interest document ("**EOI**") or subsequently provided to Applicants, whether verbally or in documentary or any other form by or on behalf of the Parishad or any of its employees or advisers, is provided to Applicants on the terms and conditions set out in this EOI and such other terms and conditions subject to which such information is provided. This EOI is not an agreement or an offer by the Parishad to the prospective Applicants or any other person. The purpose of this EOI is to provide interested parties with information that may be useful to them in the formulation of their Proposals pursuant to this EOI. This EOI includes statements, which reflect various assumptions and assessments arrived at by the Parishad in relation to the Agency.

Such assumptions, assessments and statements do not purport to contain all the information that each Applicant may require. This EOI may not be appropriate for all persons, and it is not possible for the Parishad, its employees or advisers to consider the objectives, technical expertise and particular needs of each party who reads or uses this EOI. The assumptions, assessments, statements and information contained in this EOI, may not be complete, accurate, adequate or correct. Each Applicant should, therefore, conduct its own investigations and analysis and should check the accuracy, adequacy, correctness, reliability and completeness of the assumptions, assessments and information contained in this EOI and obtain independent advice from appropriate sources. Information provided in this EOI to the Applicants may be on a wide range of matters, some of which may depend upon interpretation of law. The information given is not intended to be an exhaustive account of statutory requirements and should not be regarded as a complete or authoritative statement of law. The Parishad accepts no responsibility for the accuracy or otherwise for any interpretation or opinion on the law expressed herein.

The Parishad, its employees and advisers make no representation or warranty and shall have no liability to any person including any Applicant under any law, statute, rules or regulations or tort, principles of restitution or unjust enrichment or otherwise for any loss, damages, cost or expense which may arise from or be incurred or suffered on account of anything contained in this EOI or otherwise, including the accuracy, adequacy, correctness, reliability or completeness of the EOI and any assessment, assumption, statement or information contained therein or deemed to form part of this EOI or arising in any way in this Selection Process.

The Parishad also accepts no liability of any nature whether resulting from negligence or otherwise however caused arising from reliance of any Applicant upon the statements contained in this EOI. The Parishad may in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the information, assessment or assumption contained in this EOI.

The issue of this EOI does not imply that the Parishad is bound to select an Applicant or to appoint the Selected Applicant, as the case may be, for the Agency and the Parishad reserves the right to reject all or any of the Proposals without assigning any reasons whatsoever and cancel the entire bidding process. The Applicant shall bear all its costs associated with or relating to the preparation and submission of its Proposal including but not limited to preparation, copying, postage, delivery fees, expenses associated with any demonstrations or presentations which may be required by the Parishad or any other costs incurred in connection with or relating to its Proposal. All such costs and expenses will remain with the Applicant and the Parishad shall not be liable in any manner whatsoever for the same or for any other costs or other expenses incurred by an Applicant in preparation for submission of the Proposal, regardless of the conduct or outcome of the Selection Process.

CRITICAL INFORMATION AND IMPORTANT DATES

- UP Braj Teerth Vikas Parishad invites bidders to submit their technical & financial offer to participate in this “Expression of Interest (EOI) for Appointment of Consultant for preparation of Braj development Plan for Braj region.
- Bidder are advised to study this EOI document carefully before submitting their proposals. Submission of a proposal in response to this notice shall be deemed to have been done after careful study and examination of this document with full understanding of its terms, conditions and implications
- All communications related to this EOI including the submission of the Proposal in hardcopy shall be addressed to:
Finance Officer,
UP Braj Teerth Vikas Parishad
32 Civil Lines
Mathura 281001
Uttar Pradesh, India
Email: ceo.upbtvp@gmail.com
- Chief Executive Officer, Parishad decision will be full and final in all cases.

Last date for submission of EOI is 26.10.2018, 1400hrs.

IMPORTANT DATES:

S.No	Details	Important Dates
1	ISSUE OF BID DOCUMENT	11.10.2018
2	PREBID MEETING	16.10.2018 @ 1200 hrs
3	EOI SUBMISSION	26.10.2018 @ 1400hrs
4	PRESENTATION DATE & TIME	To be informed to selected candidate / agencies
5	OPENING OF FINANCIAL BID (ONLY FOR SUCCESSFUL QUALIFIER AFTER PRESENTATION)	After the presentation or as decided

UP BrajTeerth Vikas Parishad

Expression of Interest for Appointment of Consultant for Preparation of “Braj Development Plan” for Braj Region of Uttar Pradesh

CHAPTER - 1

1.1 Information Provided

The **Expression of Interest (EOI)** document contains statements derived from information that is believed to be true and reliable at the date obtained but does not purport to provide all of the information that may be necessary or desirable to enable an intending contracting party to determine whether or not to enter into a contract or arrangement with UP Braj Teerth Vikas Parishad Parishad in relation to the provision of services. Neither Parishad nor any of its directors, officers, employees, agents, representative, contractors, or advisers gives any representation or warranty (whether oral or written), express or implied as to the accuracy, updating or completeness of any writings, information or statement given or made in this EOI document.

1.2 Disclaimer

Subject to any law to the contrary, and to the maximum extent permitted by law, PARISHAD and its officers, employees, contractors, agents, and advisers disclaim all liability from any loss or damage (whether foreseeable or not) suffered by any person acting on or refraining from acting because of any information, including forecasts, statements, estimates, or projections contained in this EOI document or conduct ancillary to it whether or not the loss or damage arises in connection with any negligence, omission, default, lack of care or misrepresentation on the part of PARISHAD or any of its officers, employees, contractors, agents, or advisers.

1.3 Costs Borne by Respondents

All costs and expenses incurred by Recipients / Respondents in any way associated with the development, preparation and submission of responses, including but not limited to attendance at meetings, discussions, demonstrations, etc. and providing any additional information required by PARISHAD, will be borne entirely and exclusively by the Recipient / Respondent.

1.4 No Legal Relationship

No binding legal relationship will exist between any of the Recipients. Respondents and PARISHAD until execution of a contractual agreement.

1.5 Recipient Obligation to Inform Itself

The Recipient must conduct its own investigation and analysis regarding any information contained in the EOI document and the meaning and impact of that information.

CHAPTER – 2 TERMS OF REFERENCE

2.0 Background

Uttar Pradesh Braj Teerth Vikas Parishad has initiated a series of reforms and measures to improve Tourism and pilgrimage, governance, physical and social infrastructure for the well-being of citizens and tourist with a thrust to urban reforms. For efficient, economical and meaningful Development, a comprehensive and integrated data set through GIS application has become essential. To achieve the goal of electronic governance for all the services of the Parishad, large scale and detailed GIS base maps are required. Parishad intends to appoint a consultant to carry out the work of preparation of “**Development Plan along with focus on Tourism and Pilgrimage**” for Braj Region”.

A Development Plan is the long term perspective plan for guiding the sustainable planned development of the region. Development Plan lays down the planning guidelines, policies, and development code and space requirements for various tourist and pilgrimage activity, socio-economic activities supporting the regional population during the plan period. It is also the basis for all infrastructure requirements, considering changing Scenario and Increasing Spatial Analysis.

Accordingly, Parishad proposes to undertake work on the following regional details in area of Braj Region focusing on Tourism related Development.

2.1 Introduction

UP Braj Teerth Vikas Parishad, (Referred as Client) intends to implement project of “**5 Year Development Plan for Braj region**”. This way the Parishad wishes to :

- a) Report a written document / statement and shall be accompanied by such maps, diagrams, illustrations and descriptive matters as the Board may deem appropriate for the purpose of explaining or illustrating the proposals contained in the Plan.
- b) Every such map, diagram, illustration and descriptive matter shall be deemed to be a part of Braj development Plan.
- c) Seek Advice for Preparation of a plan for preserving, developing & maintaining the aesthetic quality of Braj Heritage in the field of 'Cultural, ecological & architecturally.
- d) Coordinating & monitoring the implementation of such plan.
- e) Evolving Harmonized policy for integrated tourism development & heritage conservation.
- f) Giving advice & guidance to any Development / Local body/ Authority in Mathura district in respect to any plan which affect the heritage resources of the Braj Region;
- g) Help citizens and tourists to relate to the historic parts of the city in a more personal and intimate manner;
- h) Draw the tourists into areas of rich cultural and architectural Heritage which are not yet on the tourist itinerary completely;
- i) Increased number of visitors results in heightened sensitivity of the local populace towards the historic value of settlements and encourages local communities to conserve and preserve their own heritage and inculcate a sense of pride and appreciation among them.

In this regard, UP Braj Teerth Vikas Parishad invites **Appointment of Consultant for Preparation of Braj Development Plan for Braj Region** from experienced consultants who have an experience to work in this field.

2.2 SCOPE OF WORK:

UPBTVP seeks to do :

1. Regional framework with identification of rural and urban centers.
2. Population and employment.
3. Policies pertaining to Housing, trade and commerce, Industry and tourism development.
4. Environmental sustainability of the region.
5. Conservation of built heritage and identification of heritage zone and policies.
6. Urban design and development controls to maintain and enhance character of the region.
7. Social infrastructure.
8. Physical Infrastructure.
9. Transportation plan for the region.
10. Land use plan.
11. Review and monitoring framework

The detailed scope of the services for the preparation of the Development Plan for the Braj Region jurisdiction Area will be carried out to meet the objectives through Five Stages as follows:

- a) **Stage-1:** Existing Situation Assessment
- b) **Stage-2:** Vision and Strategy Formulation
- c) **Stage-3:** Final Spatial Strategy and Preliminary Master Plan
- d) **Stage-4:** Draft Master Plan including detailed Zoning Regulations and proposed projects
- e) **Stage-5:** Assistance to Parishad in notification and finalization of Draft Master Plan, Zoning Regulations and action Plans.

STAGE - 1: EXISTING SITUATION ASSESSMENT

This stage represents the initiation of the Master Plan preparation. The scope of work in this stage is a comprehensive assessment of the existing situation and identification of the general trends of socio-economic development at the regional level. Furthermore, the stage will concentrate on the assessment of available data and information and accuracy of this data in terms of quantity, quality and its adequacy for the purpose of the preparation of the intended Master Plan. Therefore, the Consultants shall collect all available data and conduct all necessary surveys and researches as described in this Stage and as required for the assignment.

The scope of work of this stage shall be accomplished in Five (5) Tasks as follows:

Task-1 Data Collection and Review and Documentation of Policies, Strategies and Plans:

The task will draw a comprehensive picture of the existing socio-economic conditions, physical characteristics both built up and natural and assembly and appraisal of all of the data in order to identify existing development trends and issues. Furthermore, the Consultants shall fully comprehend all existing policies, plans, strategies and laws that influence the planning practices and execution of the approved plans. The activities to be carried in this Task are as follows:

1. Review of all sectoral policies, strategies and plans on regional economic development, industrial policy, tourism and heritage conservation, PPP framework, protection of environmental resources, directions given by Hon'ble Supreme court/ High Court/ National Green Tribunal etc.
2. Compile all available spatial and attribute data, regarding existing conditions in the Project Area but not limited to the following areas:

- a) Socio-economic data including economic base characteristics of various economic sectors (tourism, pilgrimage, agriculture, animal husbandry, fisheries, industry), employment, population and demographic characteristics, industrial base, prevalent sectors and output, etc.
- b) Environment and Natural Resources including forests, rivers, lakes and other water resources and protected areas, natural drainage areas and flooding areas, ravines, sanctuaries/bio-diversity areas, mining and quarrying, high value natural scenic sites, geo heritage areas including the heritage areas etc related to the environmental concerns.
- c) Physiographic and geology including climate, winds, topography, geology, natural risksites etc.
- d) Human settlement hierarchy, function and distribution: including urban and rural settlements/habitats.
- e) Built-up environment and existing land use.
- f) Transportation infrastructure including road based, rail based, waterways and air transport and networks including the projects in pipeline or policy.
- g) Physical infrastructure data including water supply and networks, Electricity supply and network, sewerage system, telecommunication, solid waste treatment facilities.
- h) Social infrastructure data including hierarchy of educational, health and other community facilities, their distribution and accessibility.
- i) Projects under implementation including the inventory of all infrastructure, housing and real estate projects.
- j) Review of previously prepared Plans, other related reports and research with special emphasis on tourism and pilgrimage.

3. Having accomplished the above activities, Consultants shall:

- a) Assess the quality and quantity of data available at the regional and other hierarchal levels.
- b) Identify the gaps in terms of information needed and the approach and methods to overcome such deficiency.
- c) Conduct all necessary field studies and surveys to update missing data and information needed for preparation of the Project.

Task-2 GIS Base Map Preparation:

Consultant shall develop a detailed GIS Base map on a scale of 1:10,000 for the Area of Interest (AOI). The details of features to be interpreted are given in **Annexure II**. The preliminary interpreted map should be ground verified and the final map is to be prepared by incorporating the ground truth data. These detailed maps consisting of the plan metric details, Cadastral boundaries, micro level land use and utility services need to be generated using the latest technologies like DGPS, image processing and digital data capture using high resolution satellite data of spatial resolution of 2.50 M, Pan Sharpened colour imagery supplemented by the ground truth collection.

The series of tasks involved in undertaking the project by the consultant are given below. The consultants / firms must note that all the methodologies mentioned here are only for understanding of the process. It is suggested that the consultants / firms, can provide a better alternative if any, to undertake each of the tasks.

A) Procurement of Satellite Imagery:

On behalf of Parishad, Consultant will procure the stereo image of high-resolution satellite data of spatial resolution of 2.5 M (Pan and Multispectral Imagery) from NRSC Hyderabad. Uttar Pradesh BrajTeerth Vikas Parishad will assist by issuing a letter to concerned Authorities for quick procurement of Satellite Imagery with following Attributes:

Resolution : 2.5 Meter Resolution

Area : Present Spread of Braj Region

coverage: Authority's Development Area with sufficient buffer.

Data : Digital and Hard Copy Images Products

Sufficient time is being given for Procuring Imagery, Hence only the acquired imagery must be used for the preparation of Base Maps. Use of data from alternative online sources is strictly prohibited as this is strictly against the usage policies of the respective services.

B) DGPS Survey & Geo Referencing:

To correct various geometric anomalies in raw satellite imagery, Ground Control Points (GCP) collected through Differential Global Positioning System (DGPS) Survey will be used for Geo referencing of the imagery. Geo Referencing and Geo-coding of data should be on WGS-84 with projection on UTM. For the DGPS Survey, GCPs should be selected at well-defined sharp points clearly identifiable both on the ground and on imagery. A total of 50 or more as per the requirement GCPs should be collected and these should be evenly distributed over the Area of interest

The consultant/ agency shall prepare and submit a Report on survey control which includes executive summary of the survey, location and extent of the net-work of Primary Survey and Secondary Survey Control Points established, Field notes on survey control including sketches, details of instruments used for field work, details of software used for processing the observed data, results summarizing the GPS observation data, map showing the network of all the control points and the points used for geo-referencing the satellite images with heights. The co- ordinates and heights for all the points shall be tabulated in a convenient and conspicuous location on the map and digital data of control points in .dwg and .shp format.

C) Orthorectification of the Satellite Images:

The satellite Images shall be ortho rectified using DGPS points and also by using DEM generated from satellite stereo pair. Use of SRTM/ ASTER and other free DEM is not permitted. Geo-referenced images form the basis for the accuracy of all products to be derived from the satellite images. A Final Report on Ortho rectification of the satellite images shall be prepared and submitted to the Client. The report shall provide a narrative description of procedures adopted, Results of the preliminary check, constraints faced, Final listing of co- ordinates for all ground control points, Digital copies of all ground control points with photographs of the control points of Base and Rover from all four directions i.e. North, South, East, West.

D) Preparation of Base Map and existing Land use Map:

Proper grid and projection shall be designed for the whole of the region. This is essential for proper representation of graphical data and location related to various layers being created which shall form part of GIS for the spatial analysis. In the case of digitization, the data is checked for dimensional accuracy, completeness, displacement, edge matching, symbology, and layering. All undershoots/overshoots; dangling and other topological errors shall cleaned in the process. **Preparation of base map is to be done on scale 1:10000.**

The extraction of features from satellite image shall also include the following:

(i) Buildings and Properties:

- (a) Boundary-defined by compound wall of government building and other important landmarks (if observed from High-Resolution Satellite Imagery, as a closed polygon). Indicate government land separately. Mention layouts approved by sanctioning Authority.
- (b) Wholesale markets/ vendor zones/ slum/ buildings of heritage importance shall be indicated.
- (c) Restricted areas boundary {eg; cantonment etc.}
- (d) Land use Map (each land use in different layer) with all attribute details along with hierarchy of social and physical infrastructure.

(ii) Roads system:

- a) Lines for right of way of road (RoW)
- b) Centre lines (CL) of roads
- c) Carriage ways - main and service roads by surface - asphalt, water bound Macadam, cart track
- d) Medians
- e) Traffic islands
- f) Kerb lines

- g) Footpaths
- h) Storm water (road side) drains
- i) Culverts
- j) Bridges
- k) Road over bridges (ROBs)
- l) Road under bridges (RUBs)
- m) Flyovers (Flyover).
- n) Major trees of Importance by point
- o) Service roads.

(iii) Transport Terminals: ISBT, Truck Terminal, Transport Nagar, Bus Stops, Bus / Truck Workshops, Parking/ Multi Level Parking etc.

(iv) Railway system: Station, yard, all structures, boundary Railway land and track (Centre line) Level crossings

(v) Storm water drainage system

(vi) Electricity system: Sub-stations 11KV /33 KV High tension transmission (HT) lines at the base Poles for high tension transmission lines (HEP) Transformer centres (TC)

(vii) Water supply system: Ground level Storage reservoirs (GLSR)/ Elevated level Storage Reservoirs (ELSR) boundary and all structures Overhead tanks (OHT), boundary and all structures c. Pumping stations, boundary and all structures. Water supply system should include information from Source to the delivery point/and area of distribution

(viii) Drainage system: Pumping stations, boundary and all structures Sewage treatment plants, boundary and all structures

(ix) Solid Waste Management System: Position of Garbage dumping ground Garbage collection points

(x) Natural features:

- a. Physiography: slope/ relief/ topography
- b. Water bodies and hydrography (as related attribute data) information on HFL, LWL, FTL etc.
- c. Reserved forests/ village forests (to be vetted by concerned department)
- d. Landslide/ Flood prone/ other disaster-prone areas
- e. Eco fragile areas and Geo-heritage sites.

(xi) Other man-made features: Man-made features in the contract area extracted from satellite images and mapped shall include: a) Canals, b) Dams , c) Tanks

(xii) Plans based on spatial/ non-spatial data depicting the following shall also be submitted:

- a) Regional location i.e. town's location with reference to its district, nearby salient feature like railway stations, airport etc.
- b) Existing Tourism activity
- c) Transportation survey (traffic survey, faulty junction etc accident zones, existing ROW)

To achieve desired standard of accuracy, it is suggestive to have a proper grid (1000 Mts x 1000 Mts) and projection shall be designed for the entire Area of Interest. This is essential for proper representation of graphical data which shall form part of GIS for the spatial analysis. In the case of digitization, the data is checked for dimensional accuracy, completeness, displacement, edge matching, symbology and layering. All undershoots / overshoots, dangling vertices shall be removed in the process. The method to be adopted for digitization shall conform to the standards prescribed under the guidelines

E) Collection of Various Maps & Data From Municipal & Government Agencies:

Simultaneously with Basemap Creation, the Consultant shall collect maps and secondary data from various authorities. A set of such maps that will form a part of the spatial database is illustrated below:

- (i) Master Plan showing proposed land use zoning, transport network and sites designated for various public purposes if any.
- (ii) Maps showing administrative boundaries of Parishad jurisdiction, administrative wards, area/ block units used by census.
- (iii) Base Map/ Revenue Maps showing Cadastral Boundaries.
- (iv) Maps/ Engineering drawings of utilities like water supply, sewerage, storm, water drainage, solid waste disposal, roads along with the data available with various authorities / ULB/ any other concerned Department.
- (v) Data regarding services like Fire Protection, Cremation and Burial Grounds, Slaughter Houses, Cattle Ponds, Parks, Gardens and Swimming Pools etc.
- (vi) Location of State and Central Government offices, railways and highways, all roads along with centrelines, post and telegraph offices, police stations, primary & high schools, colleges, universities, primary health centers, hospitals, banks, theatres etc. also need to be located on the maps.
- (vii) Existing land use categories like residential including slums, industrial, commercial and healthcare, educational, sports and recreation facilities.
- (viii) Demarcation of slums areas (Notified and Non- Notified).
- (ix) All features should be collected along with the necessary attributes that will be later used for annotation.

F) Incorporation of Cadastral Information:

Consultant shall collect the cadastral maps falling in area on Parishad Jurisdiction. **The Parishad shall pay the cost of the procurement of cadastral maps if any.** After collection of all required map, all maps have to be scanned as raster images and the vectorization of scanned raster images shall be done with label symbology and annotation with unique Ids. Digitized map shall be geo-referenced with satellite image using sufficient numbers of GCPs before incorporating the cadastral and utility information.

Overlay of Cadastral Maps on High-Resolution Satellite Image (HRSI):

The analog cadastral maps are vectorized and village-level digital cadastral maps are prepared.

G) Final Base Map:

Final base map is to be prepared incorporating the data collected from survey and the data for different entities. Hard copy base maps are to be prepared at 1: 10000 scale and village wise boundaries should be depicted. The base maps will be prepared in various layers for ease of operation in GIS. Layer and data structures can be modified depending on the local requirements of Parishad after approval. The details of the layers for base map for reference are given at **Annexure III.**

Task-3 Analysis and Assessment of Situation:

1. Based on the above, the Consultants shall conduct the assessment of the existing situation and identify issues, opportunities and challenges. The task shall cover SWOT analysis (but not limited to) the following:

- (a) Review of all sectoral policies, strategies and plans and G.O.s;
- (b) Status of present region in terms of implementation strategies;
- (c) Demographic characteristics, Tourism and Pilgrimage characteristics;
- (d) Real Estate Market Survey and Assessment

- (e) Regional Economic base assessment - Inventory of existing, on-going and proposed land use, industry and infrastructure development initiatives in the vicinity of the proposed project area
- (f) Economic sectors' assessment- Determine sectors where region exhibits competitive strengths such as skilled manpower, resource base, cost advantage, etc.
- (g) Study of Economic and Investments Scenario in region including the trends in economy, investment attractiveness, comparison with other states and regions, leading destinations of investments, attractiveness of region from an investment standpoint
- (h) Catchment Area analysis- inventory of existing catchment areas
- (i) Transportation sector assessment
- (j) Infrastructure and utilities;
- (k) Slums and urban poverty.
- (l) Heritage and conservation;
- (m) Water resources and their future capacities for the horizon year and water management.
- (n) Geomorphological studies (based on available studies and investigation);
- (o) Water bodies and conservation
- (p) Environmental Mapping and Strategic Environment Assessment; and
- (q) Spatial planning efforts and land use preferably land use modelling. Determine the carrying capacity of the region, which should be based on assumptions of a decent and adequate quality of life, based on the acceptable / appropriate infrastructure, amenities and the available natural resources.
- (r) Should produce a comprehensive report that analyses the status, suitability and sufficiency of various infrastructural facilities, utilities, and natural resources available and planned for the area.

Task-4 Stakeholder Consultations:

1. The Master Plan shall adopt participatory approach by conducting interactive sessions. Therefore, devise effective strategy to conduct consultation with stakeholders including civil society of both urban and rural areas, agriculture community, industrialists, traders, elected representatives, academicians, government and nongovernmental organizations.
2. A minimum number of various levels of consultations and workshops at village level shall be conducted.
3. Additionally, the consultant should carry out one to one interactions with key players in the religious tourism sector on their views on tourism and pilgrimage growth in region
4. Additionally, the consultant should carry out one to one interactions with key players in the industrial sector on their views on industrial growth in region
5. **The Parishad will pay for the expenditure on hiring and organizing place for stakeholder consultation, any printing work, which need to be circulated in the meetings to be borne by Consultant.**

STAGE- 2: VISION AND STRATEGY FORMULATION

1. Based on the detailed analysis and assessment of the development status and current trends in the Project Area carried out during Stage -1, the Consultants shall develop alternative strategies to achieve the goals and objective (as mentioned in point no: 3) of the sustainable development in the Project Area in the light of State level policies.
2. In this stage, the Consultants shall carry out, but not limited to, the following:
 - (a) Identification of opportunities, strengths and weaknesses and threats for the development of the region

- (b) Formulate a Development Vision for 2030 stating Vision Statement, targets and Strategies to achieve goals.
- (c) Suggestions or alternate solutions for the violations in the previous master plan. The provisions of previous master plan which needs to be amended as per the present need.
- (d) Make a realistic demand assessment on key economic activities and employment opportunities - Demand Assessment to analyze future development prospects, identify target sectors / markets based on the competitive and comparative advantage to enhance the pace of economic development, and ensure balanced development
- (e) Finalize on industries within each sector in which the local area holds clear advantage like local skill availability, market access, raw material availability, external infrastructure quality and linkages, foreign FDI interests
- (f) Developing the estimate for the likely space demand from the identified target industries for space within the region
- (g) Development of a product mix to be used as a basis for the preparation of the final land use plan which will include among other things, a list of industries and activities with land requirements
- (h) Demographic projection up to 2030 and estimate future demand on housing and other physical and social infrastructure.
- (i) Evolve 2-3 alternative scenarios for spatial growth up to 2030.
- (j) With inputs from transportation model, and other key parameters evaluate all 2-3 alternative scenarios and finally choose preferred alternative
- (k) proposed concept plan shall discuss the following:
- The vision of the regional/City spatial structure and the likely scale of development in the context of demographic trends, including migration patterns and housing issues.
 - The implications of the above on the distribution of population and activities and on the land use and environment.
 - The role and feasibility of developing growth centers that can attract inward investment and efficient infrastructure – including the potential of the region acting as a pivot for future tourism, economic and spatial development
 - Economic sector development and employment generation, strategic plans to invite foreign investments at strategic growth points for economic sustainability and balanced growth.
 - The distribution of population and economic activities and urban rural linkages and the development of rural economy and necessary infrastructure to sustain.
 - The holding capacities of various environmental factors to be assessed for sustainable development eg availability of potable drinking water sources till horizon year.
 - Identification of key commercially viable real estate / infrastructure projects that can be taken up by the Authority or other government agencies based on a detailed real estate market assessment
 - Regional and Urban Infrastructure in terms of transport, water supply, power and communication, urban environment quality including waste management and effective drainage.
 - The Management of Environment, and Natural Resources
 - Preparation of Comprehensive Transport Plan with Existing Situation analysis. Recommendation and Proposals to be presented along with DP.**

16.3 STAGE- 3: SPATIAL STRATEGY AND PRELIMINARY PLANS

1. Upon approval of the preferred strategy, the Consultants shall formulate the final spatial strategy and the resultant preliminary land use plan. The preliminary land use plan shall be prepared to the detailed level described below and by incorporating all comments and feedback from the Parishad.

- (a) General zoning covering the whole Project Area and defining clearly all types of land uses including open space, protected and productive areas. The land use assigned shall be as far as possible demarcated by the physically verifiable features eg. road, river, drain, canal, extreme level difference, forest boundary etc.
- (b) Transportation Plan: -structure plan for road network with hierarchy of roads and rail /metro / ropeway network.
- (c) Trunk level water supply system, sewerage and storm water drainage system
- (d) Social Infrastructure including health, education, recreation, sports, etc.
- (e) Commercial centers at various levels.
- (f) Solid waste and waste water treatment and disposal facilities.
- (g) Major resources and distribution system of water, power, sewerage disposal system.
- (h) Heritage conservation system
- (i) Micro level planning to promote different kinds of tourism ie. heritage, pilgrimage, adventure, medical etc.
- (j) Conservation of ecosystem and water bodies and action plans for water harvesting
- (k) Division of the Development Area into zones for the further preparation of Zonal Development Plans. The division shall be based on physically verified features and upon technical logic.

2. Strategy report will include the following:

- (a) Regional Setting
- (b) Current socio-economic condition and trends
- (c) Projections based on current trends
- (d) Opportunities and challenges
- (e) Proposed development strategy
- (f) Projections based on the proposed strategy
- (g) Spatial implications of the proposed strategy
- (h) Consultants shall prepare action plans for short and medium term

3. The other reports of Preliminary Draft Master Plan shall include the following:

- (a) Transport Sector Plan
- (b) Strategic Environmental Action Plan including solid and sewage disposal plan.
- (c) Strategic Real Estate and Industrial Development Plan
- (d) Development control and zoning regulations.
- (e) Capital Investment action Plans for the consecutive 5 year development plans covering the period of the strategy, along with preliminary cost estimate of each proposal on priority.

STAGE - 4:

- 1) Preparation of Draft Development Plan for entire Region and the as per the scope of work of this TOR and URDPFI Guidelines .
- 2) Presentation of the Draft Development Plan for the Parishad.
- 3) Incorporation of the suggestions received from the committee.
- 4) The Consultants shall prepare Draft Development Plan and submit it to the Parishad for approval.

STAGE-5: Assistance to Parishad in notification & finalization of Development Plan

1. Consultant shall facilitate Parishad in notification of Draft Development Plan as per provisions of Parishad's act which shall be exhibited to general for 30 working days. Upon receipt of objections and suggestions, the same shall be compiled.
